## Newsletter

20<sup>th</sup> May, 2022

Dear parents and carers,

I hope that everyone is well and has been enjoying the recent sunshine!

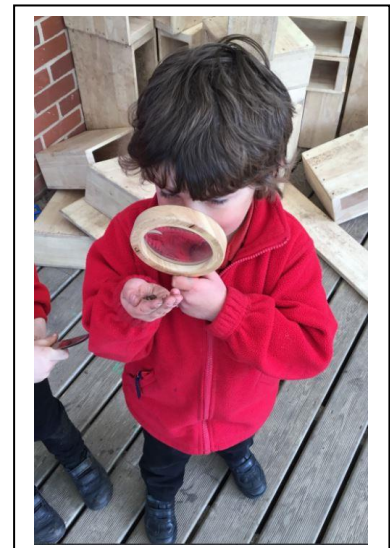

As a school we would like to say a big well done to our children in Year 6 and Year 2 who have been working very hard during their Standardised Assessment Tests (SATS's). The children were very calm and we are all very proud of how they have approached these with real determination and grit over the last 2 weeks. Well done everyone!

For those parents / carers who receive the Eden red vouchers, Norfolk County Council have changed the way in which these are supplied. They will no longer be supplied during school holidays but instead will be on a monthly basis for the remainder of this school year. It remains £15 per child and the months of April and May have been combined with a 'Go live' date of 20/05/2022. These vouchers can be 'saved' and used during school holidays if you wish but please remember to use them before they expire as they cannot be reissued (they last for 3 months).

Best wishes,

Mr Gamble

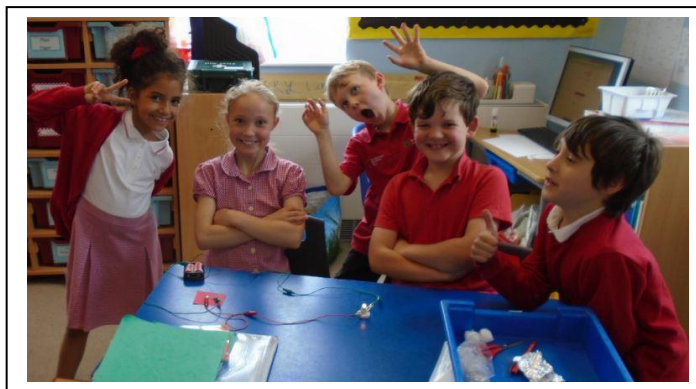

**Robins** and year 1 have been working together on phonics this week looking at capital and lower-case letters. In maths we have been focussing on symmetry and have made symmetrical butterflies. Our caterpillars are now huge and we're waiting for them to turn into chrysalises. We are having to be very patient!

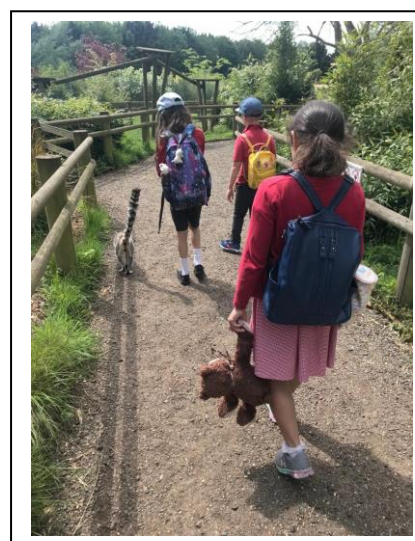

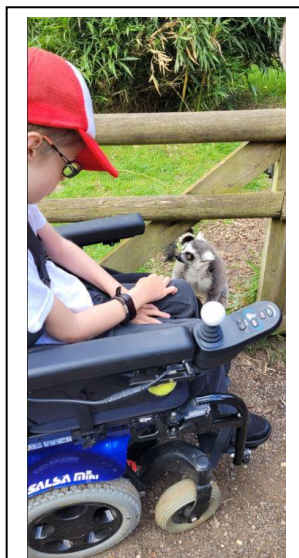

**Wrens** have been working hard! In maths we've been finding halves and sailed through fractions! In literacy, the children wrote beautiful and hilarious poems using rhyming techniques. In science we learnt about carnivores, omnivores and herbivores. Lastly, one of our favourites was creating dragon eyes using clay in art! We can't wait to share these with you soon!

**Skylarks** have continued to learn more about WW2 and the historical events that took place at Dunkirk. In maths we've been learning about adding and subtracting money and in science we have made electric circuits as well as understanding components of science.

**Swifts** year 6s completed their week of SATs and we are super proud of them! We are also so proud of our year 5s for their patience and understanding during that week while they enjoyed creating their own theme parks with Mr Gamble. We enjoyed our day at Banham zoo to end a successful week! This week we have continued with our space topic, recap on division and some funky space art!

**New dates to add to your diary**

- No school uniform day red, white & blue – 27 May
- Rock Steady Concert @ 10am – 13 July
